

# INTRODUCING OUR ***SUPERFREEZER RANGE***

Specialist Yet Accessible Deep Freeze Storage

-60°C to -10°C SUPERFREEZER  
**POLAR°STORE**  
SOLUTIONS THAT STACK UP

**Dawsongroup** | global  
Asset specialists since 1935

# Main Features – Superfreezer

Using the latest Thermo King SuperFreezer unit our Polar°store™ Superfreezer is specialist equipment designed to store high-value cargo down to -70°C. Used for a variety of products that include vaccines, high-grade seafood (tuna), medicines and scientific testing, this temperature-controlled storage unit has been specifically designed with ultra-freezing temperatures in mind with increased insulation and anti-vacuum strengthening.

Using the latest technology, our superfreezer room can maintain these temperatures 24/7 and still come with full service and maintenance included when hired or access to our supplier network when purchased. With a 2 year warranty as standard on new units it gives your business peace of mind knowing high valued cargo is being stored correctly.

## Standard features

- Available in 10ft, 20ft & 40ft sizes
- All our units are High Cube (9ft6", 2.9m)
- GDP compliant
- Flat floor (not T-section)
- LED internal lighting
